Instructions for Completing Submission Form

- **1** Completely fill in name and address information. Please include phone and email, if applicable.
- Pill in account information.
- **3** Check report format wanted.
- 4 Identification of sample. Give name for area sampled.
- Sample #(s) Limit 10 samples. May be one or two digits. You will receive one recommendation for each area identified on this information sheet. When more than one sample is included from a single area, the analytical results are averaged for interpretive and recommendation purposes. Number all samples consecutively.
- **6** Lawn/Turf Samples check or X the appropriate box (A-F) using the Lawn/Turf Codes at the bottom of the column. List only ONE code per sample.
- Landscape Category Gardens, Fruits Trees & Ornamentals. Indicate whether plant growth in the area sampled is normal or abnormal. List the code number or numbers for the plants or plant groupings being grown. Do not enter more than three code numbers. (See Landscape Codes below)
- 3 Special Problems indicate any special problems in the area sample. Use codes to describe.

Landscape Codes

Code numbers for <u>plants and plant groupings</u>. If sample is not a turf sample, place code number(s) on the front side of the information sheet under landscape category. Limit three.
